

If you are looking to conduct a survey across multiple countries and in various languages you need to be sure you have an experienced survey provider to help you. With Opinion-8 and AudioSense, our multilingual transcription service, your project will be in safe hands.

- We can help with the translation of your survey into any language.
- We offer a native speaker recording service.
- Callers can be offered a choice of language in which to hear the survey.
- Results for all languages can be analysed jointly and separately.
- We offer a transcription service via our sister company [AudioSense](#), whereby spoken comments left in any language are transcribed and available to be viewed in our management information system. Our UK-based transcription bureau is made up of native speakers who can understand perfectly the linguistic nuances, slang and culture of the languages they are transcribing. Contact us today to find out how we can help you with your transcription project.
